-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION***Election/Restrictions***

The examiner's initial telephone request for an election between the apparatus and method claim has been reconsidered and subsequently withdrawn.

Drawing Objections

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: 9 and 11, appearing in Figure 1, and 29 and 31, appearing in Figure 2. Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Maguire et al., US 6,038,525, who teaches the following:

Claim 1:

- A coating source for processing the substrate;
- A sensor that generates a signal directed toward the uniformity of the coating (3, 28-40; 4, 28-41);
- Means for generating a control signal in response to the sensor signal (5, 61ff)

Art Unit: 1709

- Wherein the control signal is capable of modifying various operational parameters such as laser energy and motor power (6, 2-3)

Claim 2:

- Processing the substrate in a treatment area of a treatment source;
- Wherein the processing proceeds in accordance with a set of parameters
 - Wherein the operating parameters include laser energy and motor power (6, 2-3);
 - Wherein the control parameters include film thickness and the composition of the deposition (Fig. 8; 3, 49-52);
- Determining a deviation of the control parameters from a predetermined set point (5, 4-9; 5, 37-60);
- Generating a control signal in response to a deviation (5, 37-60);
- Modifying at least one operating parameter in response to the control signal to compensate for the deviation (5, 61ff);

The following prior art, though not relied upon, is germane to the applicant's disclosure and is made of record accordingly: Jones et al., US 6,344,232; Gevelber et al., US 6,162,488; Park et al., US 5,893,050.
